England vs Ghana: England could face World Cup minnows the day before the FIFA 2026 tournament in the stadium

England’s FIFA World Cup campaign is set to get underway on June 17, when the Three Lions take on Group L opponents Croatia in what promises to be a crucial opening fixture. However, the build-up to that match presents a unique challenge for the Football Association, as England’s opener comes six days after the tournament officially begins with the clash between Mexico and South Africa.

Secure your FIFA 2026 Hospitality packages today!

This unusually long gap between the tournament’s first match and England’s debut has complicated preparations, particularly when it comes to arranging high-quality warm-up fixtures. With many nations beginning their World Cup campaigns earlier, the FA has faced limited options in securing suitable opposition ahead of the Croatia showdown.

World Cup: England Prepare for FIFA World Cup Challenge as Expectations Rise

According to reports from The Sun, England are expected to play two international friendlies before their Group L opener, with fixtures pencilled in for June 6 and June 10. The first of these warm-up matches is set to take place against New Zealand in Tampa Bay, with Raymond James Stadium emerging as the likely venue.

Raymond James Stadium, home to the NFL side Tampa Bay Buccaneers, boasts a seating capacity of just over 69,000 and is no stranger to major sporting occasions. The iconic venue hosted Super Bowl LV in 2020, which was won by the Buccaneers, marking the third time the stadium staged the NFL's showpiece event. The choice of such a high-profile venue underlines England's intention to acclimatise to big-match conditions ahead of the World Cup.

Soccer World Cup: Tuchel's Tactical Plans and Squad Depth

New Zealand, known as the All Whites, begin their own World Cup journey on June 15 against Iran at SoFi Stadium. Ranked 85th in the latest FIFA standings, they may not represent elite opposition, but they do possess experience and physicality, with Nottingham Forest striker Chris Wood among their standout players. Crucially, New Zealand's later tournament start date and the fact that they are not drawn in England's group made them one of the few viable options available for a pre-tournament friendly.

The condensed friendly schedule is largely due to updated FIFA regulations. Teams participating in the World Cup are now prohibited from playing a friendly within five days of their opening match. This marks a slight adjustment from previous rules, which banned warm-up games only 48 hours before the tournament began. The change reflects the expanded format of this year's competition, which features 48 nations instead of the traditional 32.

FIFA World Cup: Expectations and Pressure on England at the World Cup

Details regarding England's second warm-up opponent have yet to emerge, although it is understood that the match will also take place in Florida, where the squad will be based for their pre-tournament training camp. After completing their friendly fixtures, Thomas Tuchel and his players will travel to Kansas City, which will serve as England's base during the World Cup.

Before those preparations, England will also host Uruguay and Japan during the final international window. The Three Lions face Uruguay at Wembley Stadium on March 27, followed by a clash with Japan on March 31. While both matches are classed as friendlies, they carry significant importance, as players look to impress Tuchel and secure their place in the German coach's final World Cup squad.
